

In The Rainforest

Unknown (adapted by Catherine Woolley)

Raindrops **drip**, drip, drip

Visual/Tactile/Auditory: drip water using pipette onto hands/into a bowl of water.

From the **green** canopy above,

Visual/Tactile/Proprioception: Feel green real/fabric leaves above head on umbrella.

Sloth sleeps beneath

Tactile: stroke long haired fur fabric.
Auditory: sound of snoring on switch.

Gorilla shelters **below**.

Proprioception: green lycra over body, encourage movement

Ants **scurry** home.

Tactile: spiky ball running along forearm.

In the **rainforest**

Auditory/proprioception: big mack switch with rainforest sounds on.
Smell: rainforest scent

Sun shines down on the trees below

Visual: torch shining on a mirror in tray with branches/leaves in.
Tactile: encourage exploration of leaves/twigs.

Parrot perches on a high branch

Tactile/proprioception: Velcro feathered parrot toy onto wooden branch

Toucan calls across the treetops

Auditory: echo mics for vocalisations/toucan call on big mack.

Butterflies **dance** in the sun's rays

Visual/vestibular: use scarves to be butterfly wings and dance around the room/
use chiffon scarves to throw up and float down in visual field.

In the **rainforest**

Auditory/proprioception: big mack switch with rainforest sounds on.
Smell: rainforest scent
