

**Subject: Variation in animals**

**Week: 8**

**Class: Com EOI**

**Teacher: L Dunkerley**

### Learning Outcomes:

To understand that individual members of a species may be different in many ways.  
To know that some individuals look like their parents but are not identical to them.

### Worksheet

Variation

### Activities:

Please email me if you need the code for Showbie to get access on your iPad:

### Evaluation:

I can't do it yet

I can nearly do it

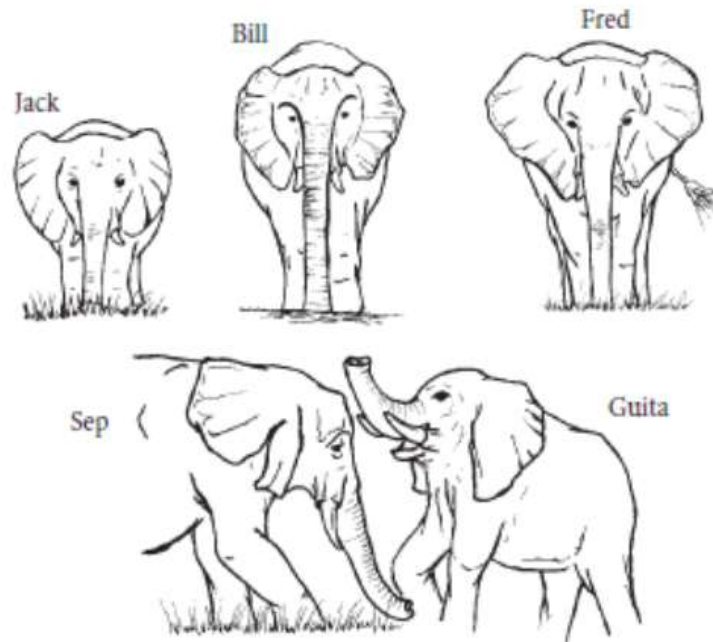

I can do it

## Variation

Rob has just started a new job at London Zoo. He has to learn the names of the elephants but they all look the same to him.

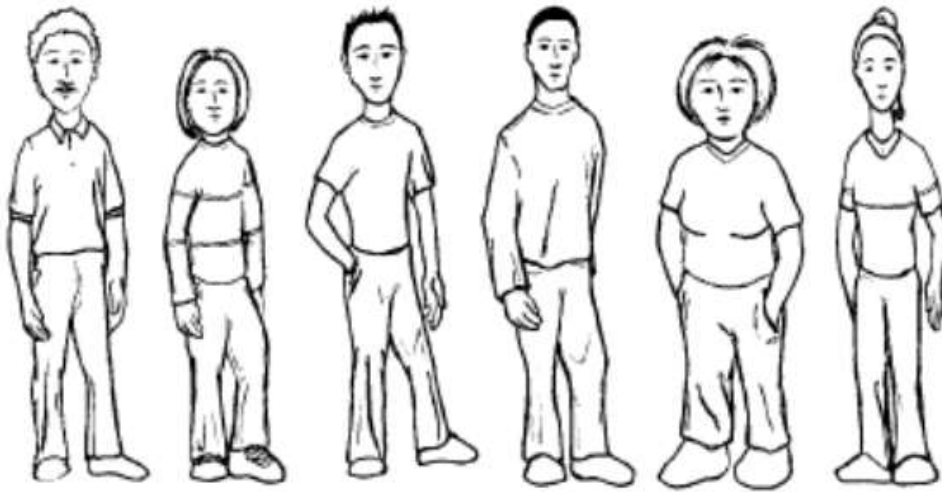

Although they all look the same each elephant has one feature that is different from the other elephants features.

1 Help Rob to identify the elephants by writing down each elephant's different feature.

Elephant	Distinguishing Feature
Jack	
Bill	
Fred	
Sep	
Guita	

2 There is variation between the elephants look at your answers to question 1 and try to explain what that means.

3 There is also variation between the people that Rob works with. Write down three ways in which people may vary.
